

# Infection Control Champions

- Each ambulatory practice/location has two dedicated infection control (IC) champions
  - Clinical Champion (Unit Medical Director unless an alternate is appointed)
  - Administrative Champion (Practice Manager unless an alternate is appointed)
- IC Champions are:
  - Resources to practice team for first line questions **and**
  - Oversee IC compliance for recovery phases
- Questions funneled to Ambulatory Management for trend management
  - Ambulatory Management works with Infection Control for:
    - Answers
    - Training and knowledge gaps
    - Keeping the very busy IC staff from being overwhelmed by one-off requests
